Army Study to Assess Risk and Resilience in Servicemembers-Longitudinal Study
STARRS-LS

The STARRS-Longitudinal Study (STARRS-LS) is a part of the Army Study to Assess Risk and Resilience in Servicemembers (Army STARRS) research program. This program aims to follow Soldiers and Veterans for many years to find out how serving in the Army affects health and well-being. The University of Michigan is conducting this follow-up survey to help the Army and Department of Defense (DoD) understand Soldiers' and Veterans' healthcare needs and build better programs to meet those needs. What we learn from this study will be used to help both current and future Soldiers and Veterans. Please take this opportunity to let the Army and Department of Veterans Affairs (VA) know about your views and experiences. It was [FILL: AMOUNT OF TIME] when we last interviewed you, and we are interested in how your physical and emotional health has changed during that time. This information will help the Army and VA know more than they do about the needs of Soldiers and Veterans. Please help us by completing the survey.

NAME VERIFICATION

We would like to make sure that this survey has reached the right person. Is your name [FILL: RESPONDENT FIRST NAME, LAST NAME], or have you ever gone by that name? (*If you need to make a change to your name, there will be a chance at the end of the interview.*)

STARRS Longitudinal Study (STARRS-LS) – Information about the Survey

This screen highlights your rights as a participant in research. A full version of the information sheet can be accessed by clicking here. Our Privacy Notice is also available for review.

Invitation and Purpose

- The University of Michigan on behalf of the STARRS-LS research team invites you to participate in a survey to learn how Soldiers and Veterans build and keep up strong physical and emotional health during their Army career and after they leave military service.
- If you are currently on active duty status, please remember that this survey must be completed outside of official duty hours.
- Participation in this survey is an opportunity to convey your experiences since our last interview. Your answers will help the Army and VA improve programs that help Soldiers and Veterans stay healthy after experiences that some people find stressful.

Procedures

- Your participation is voluntary and you may end your participation at any time.
- You can skip any question you do not want to answer.
- Your participation will take about [FILL: TIME AMOUNT] minutes.
- Upon the completion of the survey we will send you [$AMOUNT] as a token of our appreciation.

Risks and Benefits

- You may not benefit personally from filling out the survey, but participating will help the Army and VA understand how to help other Soldiers, Veterans, and their families stay healthy after going through experiences that can be stressful.
- For some people, answering questions about stressful experiences can make them anxious or upset. Other people find it helpful to answer questions about these experiences. If the questions upset you, you can stop at any time or skip the question.
- Information like your name or other information that can identify you individually will never be included in the results. The only exception is if your responses indicate that you are going to hurt yourself or someone else, in which case the STARRS-LS research team will ask a military Chaplain or member of the research team to contact you for a confidential conversation to assess risk, and be available for help.

Research Findings

- The information you provide by answering the survey questions will be combined into large data files with reports of many Soldiers and Veterans who complete the survey. The computerized data files will be used to make recommendations to the Army and VA to help Soldiers and Veterans. In addition, results will be published in scientific journals and reported at scientific meetings outside of the Army.
- We will never identify you as a participant in the study. Results will only be reported for groups of people, not individuals.

Confidentiality

- Your survey responses will be kept confidential.
- Your individual identity will never be disclosed. Results will be reported for groups only, not individuals.
- Only your study number will be stored with the information.
- The Secretary of the Army has issued a memorandum to further ensure the protection of confidentiality of all information provided by Soldiers and Veterans in the course of the STARRS-LS study.

Your Rights

- Questions about your participation in this study can be directed to the University of Michigan Principal Investigator:

> James Wagner
> [877-556-1542]
> STARRS-LS@umich.edu

- Questions about your rights as a research participant, or if you wish to obtain more information, ask questions or discuss any concerns about this study with someone other than the researcher(s), please contact the University of Michigan Institutional Review Board, NCRC, 2800 Plymouth Road Building 520, Suite 1169, Ann Arbor, Michigan 48109-2800, 734.936.0933 or toll free, 866.936.0933, irbhsbs@umich.edu

(C1) ADMIN CONSENT

In an earlier interview, you gave your permission to link the answers in your survey to data in your Army and DoD records.

There is no risk to you in doing this, because this is information that the Army already has, but we do need your permission to collect your Army information and add it to other data you directly provide for any Army STARRS data collection. The combined file <u>will not contain your personally identifiable information</u> and will not be shared with the Army or VA. Steps we will take to protect your confidentiality include:

- We replace your name and social security number with a study number.
- We <u>only</u> use data with study numbers.
- We do not allow data access to anyone outside the Army STARRS research team – this includes Army or VA personnel.
- We adhere to very strict data security procedures.
- Results will be reported for groups only.

We will use your Social Security Number to link the information, but this will be treated the same way as your name. It will immediately be replaced by a study number. Your Social Security Number will never be a part of the combined data file. We would like permission to link this information to this survey and other data you directly provide for any Army STARRS data collection.

Do you agree to have data you provide linked to Army/DoD administrative data?

○ Yes

Title of Research Study: Study to Assess Risk and Resilience in Servicemembers – Longitudinal Study (STARRS-LS)

I.   Purpose of this Document

An Authorization is your signed permission to use or disclose your health information. The Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule, as implemented by the Department of Defense (DoD), permits the Military Health System (MHS) to use or disclose your health information with a valid Authorization. The MHS is defined as all DoD health plans and DoD health care providers that are organized under the management authority of, or in the case of covered individual providers, assigned to or employed by, the Defense Health Agency (DHA), the Army, the Navy, or the Air Force. A valid Authorization must include the core elements and required statements as contained in this document.

Please read the information below and ask questions about anything you do not understand before deciding to give permission for the use and disclosure of your health information.

II.   Authorization

The following describes the purposes of this research study:

The STARRS-Longitudinal Study (STARRS-LS) is a part of the Army Study to Assess Risk and Resilience in Servicemembers (Army STARRS) research program. This program aims to follow Soldiers and Veterans for many years to find out how serving in the Army affects health and well-being. The goals of STARRS-LS are to help the Army and DoD understand Soldiers' and Veterans' healthcare needs and build better programs to meet those needs. What we learn from this study will be used to help both current and future Soldiers and Veterans. The purpose of this authorization is to gather permission from you to link health records from the DHA to survey responses collected through Army STARRS and STARRS-LS research.

If the research team identifies a need to use your information for a study outside of the scope of the Army STARRS research program, we will seek your permission separately and you can decide whether to participate.

A.   What health information will be used or disclosed about you?

All health information from your MHS records will be made available for STARRS-LS research. For each specific research component, only the minimum necessary information from your record will be used or disclosed.

Individual identifiers, such as your name and SSN, will be removed from your MHS health records and replaced with a study number. This is done on a highly secure server separate from survey and all other data. Only a few individuals have access to this location. The Principal Investigators and research analysts never see your individual identifiers and only use data with study numbers in their analysis.

B.   Who will be authorized to use or disclose your health information?

Any DoD health plan or DoD health care provider who has treated you or provided service during and after your military service.

C.   Who may receive your health information?

Only the STARRS-LS Principal Investigators, study coordinators, and other members of the research team may receive your health information.

8

This is done on a highly secure server separate from survey and all other data. Only a few individuals have access to this location. The Principal Investigators and research analysts never see your individual identifiers and only use data with study numbers in their analysis. The investigators of this study are committed to protecting your privacy and the confidentiality of information related to your health care.

D. What if you decide not to sign this Authorization?

The MHS **will not** condition (withhold or refuse) treatment that is not part of this study, payment, enrollment, or eligibility for benefits on whether you sign this Authorization.

E. Is your health information requested for <u>future</u> research studies?

No, your health information *is not* requested for future research studies. As outlined in Section II above, STARRS-LS will follow you for many years. However, you may be asked to participate in other studies that are outside of the scope of the research described in Section II. In the event that you agree to participate in such a study, a separate informed consent and HIPAA Authorization will be requested from you.

F. Can you access your health information during the study?

You may have access to your health information at any time, unless your identifiers are permanently removed from the data.

G. Can you revoke this Authorization?

- You may change your mind and revoke (take back) your Authorization at any time. However, if you revoke this Authorization, any person listed above may still use or disclose any already obtained health information as necessary to maintain the integrity or reliability of this research.

- If you revoke this Authorization, you may no longer be allowed to participate in this research study.

- If you want to revoke your Authorization, you must contact University of Michigan site PI, Dr. James Wagner, at STARRS-LS@umich.edu or (877) 556-1542.

H. Does this Authorization expire?

Yes, it expires at the end of the research study.

I. What else may you want to consider?

- No publication or public presentation about the research described above will reveal your identity without another signed Authorization from you.

- If all information that does or can identify you is removed from your health information, the remaining information will no longer be subject to this Authorization and may be used or disclosed for other purposes.

- In the event your health information is disclosed to an organization that is not covered by HIPAA, the privacy of your health information cannot be guaranteed.

By checking the box and clicking the Continue button below, you acknowledge that:

- You authorize the MHS to use and disclose your health information for the research purposes stated above.

- You have read (or someone has read to you) the information in this Authorization.

- You have been given a chance to ask questions, and all of your questions have been answered to your satisfaction.

We are interested in learning how Soldiers and Veterans are doing at different times both during service and after leaving service. Now that the number of survey respondents leaving service is increasing, we would like your permission to link your survey data to Department of Veterans Affairs (VA) and Veterans Health Administration (VHA) medical and pharmacy records including inpatient and outpatient visits, ER visits and types of medication received. If you give us permission, we will use your Social Security Number to link these VA and VHA records with the information you have provided in any Army STARRS data collection. The resulting research dataset will contain <u>no identifying information about you</u>, like your name or address, and will be used only for research purposes. An Authorization is your signed permission to use or disclose your health information. The Health Insurance Portability and Accountability Act (HIPAA) Privacy Rule permits the Veterans Health Administration (VHA) to use or disclose your health information with a valid Authorization. Your individually identifiable health information is information about you that contains your health information and information that would identify you such as your name, date of birth, or other individual identifiers. We are asking you to allow the STARRS-LS Principal Investigators and research team members to access and use your past, present and future health information for the study named above. The investigators of this study are committed to protecting your privacy and the confidentiality of information related to your health care.

Signing this authorization is completely voluntary. Your treatment, payment, enrollment, or eligibility for VA benefits will not be affected, whether or not you sign this authorization.

Please read the information below and ask questions about anything you do not understand before deciding to give permission for the use and disclosure of your health information.

- **Public records** are government records that are open to the public. Examples of public records include court decisions, accident records, real estate property records and geographical area characteristics, such as percent unemployment in the county where you live.

- **Publicly available information** is information that is open to the public but does not come from the government. Examples of publicly available information include newspaper reports, publications, telephone and business directories, and classified ads.

If you give us permission, we will use your Social Security Number to link these public records with the information you have provided in any Army STARRS data collection. Note: the first part of this checkpoint sends respondents who took LS.T3 and were not missing military status at LS.T3 to A1a to check if their status has changed since LS.T3. Make sure that it is written to ensure that ONLY respondents that were NOT missing the military status questions at LS.T3 go to A1a – so if they answered all of the military status questions and their status at LS.T3 was assigned based on the survey questions/their responses in the military status section of the survey then they should go to A1a. If they did NOT give a military status at LS.T3 and we set their status at LS.T3 to either the military status at LS.T2 or status at LS.T1 or administrative data then we want to ask them the military status questions again so they should go to A1.

OE1. Opportunity to provide feedback message (Respondents will be randomly assigned to receive one of the following messages or no message at all):

1. **There will be a place at the end of the survey where you will be invited to share information about anything affecting your mental or emotional health that has not been captured earlier.**

2. **When completing the survey, Soldiers and Veterans sometimes want to share more about their experiences. We welcome and greatly value learning about your experiences related to mental or emotional health, so at the end of the survey, we will ask if there is anything else you would like to share.**

SECTION PS: PREVIOUSLY SEPARATED/RETIRED ANY ARMY COMPONENT

NOTE: The respondents who are sent to this section are those who's last survey prior to this survey was either LS.T1 or LS.T2 or LS.T3 and they were separated or retired from the Regular Army, Army Reserve, or Army National Guard at the time of that survey. We already asked them about their Army career so we do not ask them those questions again. So we will ask for their current employment status and if their employment status has changed. If it has not changed then we do not need to ask them questions about their employment/details about their job because we asked all of those questions in a previous survey. If it has changed then we will ask these questions. And then everyone is sent to the section asking about school.

H1.   **The next question is about whether you ever had an episode lasting <u>several days or longer</u> when your mood was much higher than usual most of the day, much more irritable than usual most of the day, or a mix of these things.**

        During these episodes, people are often much more excitable than usual, extremely self-confident, or optimistic. They often do things they would normally not do. And this sometimes gets them in trouble or puts them at risk of trouble.

        With this definition in mind, did you <u>ever</u> in your life have an episode of this sort? Do not count episodes caused by drinking or using drugs.

- **In some other kind of temporary housing (e.g., hotel, motel)**
- **In a homeless shelter, transitional housing program, or halfway house**
- **In a vehicle (e.g., car, van, camper)**
- **In a public space (e.g., street, park, subway, bus, or train station)**
- **In a tent, abandoned building, basement or other place not intended for residence**

With this definition in mind, have you ever been homeless since you [(CURRENT MILITARY STATUS IN CURRENT SURVEY = "SEPARATED REGULAR ARMY" OR "RETIRED REGULAR ARMY") OR (MILITARY STATUS AT LS.T3 = "SEPARATED REGULAR ARMY" OR "RETIRED REGULAR ARMY" OR "ACTIVE DUTY REGULAR ARMY") OR (A20 = "REGULAR ARMY" OR A20 AT LS.T3 = "REGULAR ARMY") OR (A24 = "YES" OR A24 AT LS.T3 = "YES") OR (AA14 = "YES" OR AA14 AT LS.T3 = "YES") OR (AR16 = "YES" OR AR16/AR19 AT LS.T3 = "YES") OR (DR16 = "YES" OR DR16/DR19 AT LS.T3 = "YES") OR (SR27 = "YES" OR SR16/SR20 AT LS.T3 = "YES"): left Active Duty Service in the <u>Regular Army</u>/(CURRENT MILITARY STATUS IN CURRENT SURVEY = "ACTIVATED ARMY NATIONAL GUARD" OR "DEACTIVATED ARMY NATIONAL GUARD" OR "SEPARATED ARMY NATIONAL GUARD" OR "RETIRED ARMY NATIONAL GUARD") OR (MILITARY STATUS AT LS.T3 = "ACTIVATED ARMY NATIONAL GUARD" OR "DEACTIVATED ARMY NATIONAL GUARD" OR "SEPARATED ARMY NATIONAL GUARD" OR "RETIRED ARMY NATIONAL GUARD") OR (A20 = "ARMY NATIONAL GUARD" OR A20 AT LS.T3 = "ARMY NATIONAL GUARD"): joined the Army National Guard/ALL OTHERS: joined the Army Reserve]?

By a "time" we mean an episode lasting at least one day when you did not have a stable place to live. For example, let's say you lived in your car for 2 months, then got stable housing for a year, then were homeless again for 6 months. That would count as being homeless 2 times.
